EXPERIENCE

• Samsung SDS

Security Tester

Ha Noi, Vietnam

March 2024 – Present

- Performed customer-facing web/mobile penetration tests with **Burp Suite** and **OWASP Top 10**, turning raw findings into exploitable, reproducible proof-of-concepts.
- Validated authentication, access control, input validation, and business logic issues before delivery, reducing false positives in final reports.
- Produced risk-rated remediation reports that helped engineering teams prioritize security fixes by exploitability and business impact.

• 8seneca Company

Part-Time Software Engineer

Ha Noi, Vietnam

Oct 2023 – Feb 2024

- Shipped internal web/mobile workflows for users and admins, improving day-to-day operations through cleaner screens and backend integrations.
- Debugged backend services with senior engineers and resolved recurring reliability issues in internal tools.

PROJECTS

Android Malware Detection System – [GitHub Repository](#)

- Built a modular malware classification platform with **sklearn**, **TensorFlow**, **PyTorch**, **Flask**, and **TypeScript**, turning model outputs into actionable risk scores.

Mobile Chat Internal Company – [GitHub Repository](#)

- Shipped **React Native** chat workflows for contact discovery, messaging, approvals, and admin channel management, reducing duplicated user/admin UI logic.

PortSwigger Web Security Academy Labs – [GitHub Repository](#)

- Documented exploit paths and root causes for **SQL injection**, **XSS**, **authentication**, and **access control** labs using **Burp Suite**.

Hack The Box Labs – [GitHub Repository](#)

- Built a repeatable workflow across **enumeration**, **web exploitation**, **privilege escalation**, credential abuse, and Active Directory attack paths.

EDUCATION

Vietnam Academy of Cryptography Techniques, MS in Information Security

Dec 2025 – Present

- Currently pursuing graduate study in Information Security.

Hanoi University of Science and Technology, BS in Cyber Security

Sept 2021 – Jul 2025

- GPA:** 3.25/4.00 — **Very Good** — Coursework: Network Defense, Malware Analysis, Digital Forensics

CERTIFICATES

[Burp Suite Certified Practitioner](#)

[Microsoft SC-900](#)

[AWS Solutions Architect – Associate](#)

[Best Thesis Defense Presentation](#)

[TOEIC Speaking 140](#)
