

PERSONAL DETAILS

- Name **DUONG HA NAM**
- Nationality Vietnamese
- Date of Birth May, 28th 1989
- Sex Male
- Marital status Married
- Phone No. (84) 944343913
- Email duong.hanam285@gmail.com

EDUCATIONAL BACKGROUND

- Professional Diploma in Information Technology – National Institute of Information Technology (NIIT), Vietnam
- English language – Hanoi University, Vietnam

CERTIFICATE AND AWARD

- Scholarship for the high qualification of the entrance exam (NIIT).
- Fresher – Fpt Software

PROFESSIONAL SUMMARY

- Well trained to be a software developer from NIIT (graduated in 2012) with a focus on developing web application using ASP.Net and Database management.
- Well trained to be a Tester from FSoft with a focus on testing skill
- Very good soft skills: working in group, presentation and communication.
- Good at algorithm and data structure
- Have 8 years experienced in testing program
- Have 4 years experienced as Test Leader
- Having a good English proficiency.
- Be able and willing to work individually as well as in a team.
- Have experienced working so much project of big customer and company e.g : LG, Panasonic, FPT, VinGroup
- Have experienced working API Testing, Performance Test

SOFTWARE

- **Databases etc:** MS SQL Server
- **Programming Languages:** C#
- **Programming Tools:** Visual Studio 2008, Microsoft Visio
- **Framework:** .NET
- **Configuration Management tools:** Visual SVN
- **Browsers:** Firefox , Google Chrome
- **OOAD/OOP:** Object Oriented Analysis (OOA), Object Oriented Design (OOD), Object Oriented Programming (OOP), Unified Modeling Language (UML)

OPERATING SYSTEMS

- Windows, Windows Server family

PROFESSIONAL EXPERIENCE

Company	Earable® Neuroscience
Duration	1/2023 – present
Role	Senior tester
Responsibilities	✧ Study the requirement and make Q&A ✧ Create testcase (high-level and Details) ✧ Testing , log and verify bug ✧ Report to PM ✧ Discuss with dev to resolve the issue
Project Description	✧ Spearheaded the development of the innovative FRENZ Brain band, aimed at enhancing user sleep quality through the FRENZ mobile application. ✧ FRENZ is an application that uses artificial intelligence (AI) technology to provide a variety of functions. AI applications can range from virtual assistants to personalized recommendation systems, sleep scoring, posture recognition, natural language processing, and more.
Tools/Hardware	✧ iOS/Android Platform ✧ Postman ✧ Jmeter

Company	Vnext Global
Duration	07/2022 –12/2022
Role	Senior tester, Test lead
Responsibilities	✧ Study the requirement and make Q&A ✧ Create testcase (high-level and Details) ✧ Testing , log and verify bug ✧ Verify testcase, test result, Bug and QA

	✧ Report to PM ✧ Discuss with dev to resolve the issue ✧ Testing API
Project Description	✧ Employee can see and mangage the information such as User profile, Employee list, Attendance,Time off, equipment
Tools/Hardware	✧ iOS/Android Platform ✧ Jmeter ✧ Swagger

Company	Vinfast
Duration	01/2020 –06/2022
Role	Senior tester, Test lead
Responsibilities	✧ Study the requirement and make Q&A ✧ Create testcase (high-level and Details) ✧ Testing , log and verify bug ✧ Create Test plan, test report, test monitoring and control, organizing daily meeting, review test case ✧ Verify testcase, test result, Bug and QA ✧ Report to test manager, PM ✧ Training for member ✧ Discuss with dev to resolve the issue ✧ Testing API and performance test
Project Description	✧ Charging system for Ebus -ECar
Tools/Hardware	✧ iOS/Android Platform ✧ Postman ✧ Jmeter ✧ Swagger ✧ SQL Server ✧ Enviroment Browser: Chrome, Microsofe edge

Company	VinID
Duration	08/2018 –12/2019
Role	Senior tester, Test lead
Responsibilities	✧ Study the requirement and make Q&A ✧ Create testcase (high-level and Details) ✧ Create Test plan, test monitoring and control, organizing daily meeting, review test case ✧ Testing , log and verify bug ✧ Create test plan, Test report ,create daily report for PM,Control process executed ,verify bug and create test case ✧ Implementing system test and update test case, study Defect, review bug for member ✧ Testing API for app ✧ Report to test manager, PM

	✧ Training for member ✧ Discuss with dev to resolve the issue
Project Description	✧ VinID App,user can Earn points immediately after payment on Vingroup's entire system (VinMart, VinMart +, VinPro, VinCom, VinMec, VinSchool, VinPearl ...), Redeem points immediately into thousands of product & service vouchers.
Tools/Hardware	✧ iOS/Android Platform ✧ Postman ✧ Swagger ✧ SQL Server

Company	Fsoft
Duration	01/2015 – 07/2018
Role	Senior tester, test leader
Responsibilities	✧ Study the requirement and make Q&A ✧ Create testcase (high-level and Details) ✧ Testing , log and verify bug ✧ Create test plan, Test report ,create daily report for PM,Control process executed ,verify bug and create test case ,Make weekly report for customer ✧ Analyzing the requirements obtained from customer ,review test design and test case for member ✧ Implementing system test and update test case, study Defect, review bug for member ✧ Training for member ✧ Discuss with dev to resolve the issue
Project Description	✧ Automotive: ➤ Objective: To thoroughly test applications for the Head Unit System in vehicles. ➤ AVN: ✧ Objective: To thoroughly test applications for the Head Unit System in vehicles. ✧ Main Functions: ● Audio/Video (AV): ➤ Ensures seamless playback of audio and video content. ➤ Validates compatibility with various formats and codecs. ➤ Verifies volume control, equalization, and audio quality. ● Camera Streaming: ➤ Validates real-time streaming from cameras (e.g., backup cameras, dashcams) to the display. ➤ Tests camera switching, resolution, and

	clarity. ● Connectivity: ➤ Verifies Bluetooth pairing for hands-free calling and media streaming. ➤ Tests USB connectivity for file transfer and device charging. ➤ Validates Wi-Fi connectivity for updates and app downloads. ● Diagnostics: ➤ Monitors system health and performance. ➤ Detects and reports errors or anomalies. ➤ Ensures proper functioning of sensors and processors. ● Navigation (Navi): ➤ Validates GPS functionality for accurate positioning and route guidance. ➤ Tests map rendering, turn-by-turn directions, and real-time traffic updates. ➤ Verifies integration with voice commands and touchscreens. ➤ CMA-BT ✧ Object: The project is to develop a Bluetooth system for geely car ✧ Other Project: ✧ Vpbank (Outsource) : ● Card Management for the system of Vpbank ✧ ENSmartBook: ● The project is to develop a system to educational books of jp customer. ✧ TSS_SSS: ● The project is to develop a system to educational books of jp customer. ✧ CMS Testing: ● Test web of Japanese goverment ✧ Chopper: ● Test Mobile of Hitachi
Tools/Hardware	✧ iOS/Android Platform ✧ Linux ✧ SQL Developer

Company	Viegrid
Duration	08/2013 – 12/2014
Role	Tester, test lead
Responsibilities	✧ Study the requirement ✧ Write documents (FRS and URS) ✧ Create testcase ✧ Create test plan, Test report ,create daily report for PM,Control process executed ,verify bug and create test case ,Make weekly report for customer ✧ Analyzing the requirements obtained from customer ,review test design and test case for member ✧ Training for member ✧ Discuss with dev to resolve the issue ✧ Testing , log bug ✧ Write documents ✧ Implementing system test and update test case, study Defect, review bug for member
Project Description	• Project: Viebooks System • Project: Administrative management system – Ministry of health • Project: Administrative management system – Hué Department of Health
Tools/Hardware	✧ SQL Developer

Company	Fsoft
Duration	12/2012 – 07/2013
Role	Tester
Responsibilities	✧ Study the requirement ✧ Create testcase ✧ Prepare test data ✧ Testing , log bug
Project Description	• Project: CPMS Object: Central pool management system • Project: Training Tool Object: Training Management System • Project: DMS Object: Defects Management System
Tools/Hardware	✧ SQL Developer ✧ Enviroment Browser: Chrome, Firefox, IE
