

NGUYEN HA LY

Manual Tester

Date of birth: Nov 01, 2000
Gender: Female
Email: nguyenhaly2000@gmail.com
Contact: 0962116387

PROFILE

- Experienced and reliable Quality Assurance professional with over 2+ year of experience working in IT companies to ensure the highest quality outcomes possible.
- Responsible for ensuring the quality of products/services by implementing and maintaining quality control procedures, conducting inspections and tests, and analyzing data to identify areas for improvement.
- Adept in providing suggestions and solutions to improve and enhance productivity.
- Committed to achieving state-of-the-art engineered designs, and the successful completion of projects.

EDUCATION BACKGROUND

July 2018 - Dec 2022	Electric Power University Major: Accounting GPA: 7.5/10
Nov 2021 – Jan 2022	TesterHN Center Major: Manual Testing

SKILLS

Language	IELTS 6.0 (Academic)
Technical skills	Basic knowledge of SQL, API testing Using well office computer as Excel, Word, PowerPoint Test execution: Mobile, PC, Tablet, POS devices, Virtual browser,... Test plans, Test cases, Test processes, Manual testing Design: Adobe Photoshop, Adobe Illustrator, Figma, Drawio. UAT Tracking Issue
Soft – skills	Aptitude for Mathematics Conflict Resolution High self-study Analytical and Communication Skills Problem Solving

CERTIFICATIONS

2025	ISTQB Foundation Level
2022	IELTS 6.0
2022	Tester certificate at the TesterHN center
2021	MOS EXCEL 2013 980/1000

WORK EXPERIENCE

Jan 2025 – Present SYNODUS JOINT STOCK COMPANY

TravelCheck: *A complex fintech ecosystem integrating digital wallet infrastructure, P2P exchange engine, crypto asset management, virtual card operations, and role-based administrative back-office systems with high-security transaction controls.*

Duration: May 2025 - Present

Teamsize: 10

Responsibilities:

- Designed and executed full E2E test scenarios covering Authentication, P2P, Exchange, Crypto Wallet, Virtual Card, Commission & Payout modules
- Validated transaction lifecycle integrity (create → process → complete/cancel/block) ensuring balance consistency and commission accuracy
- Tested security-sensitive flows including 2FA configuration, withdrawal validation, account lock/deactivate/recover processes
- Performed regression testing across PBO (Admin Back Office) and ABO (Agent Back Office) systems
- Verified role-based permission matrix for Admin, Operator, Agent, and End-user
- Tested filtering, export, reporting, and audit log functionalities
- Coordinated with BA and Developers to clarify business logic and resolve critical financial calculation defects
- Supported UAT and production releases with risk assessment and defect impact analysis

Technologies Used: Jira, Excel/Docs, PostMan, Dbearver, Jmeter

Austra Vita Care – Healthcare Monitoring System: *A healthcare monitoring platform designed for nursing homes, enabling real-time vital sign tracking, alert management, resident lifecycle management, and facility infrastructure administration through Web Admin Portal and Mobile Application.*

Duration: Jan 2025 – May 2025

Teamsize: 8

Responsibilities:

- Analyzed SRS and User Guide documents to design comprehensive test scenarios for Web Admin Portal and Mobile App
- Designed and executed manual test cases covering Authentication, Dashboard, Resident Management, Alert Handling, Facility/Building/Ward/Room Management modules
- Validated real-time alert workflows including Dismiss, Resolve, Transfer Ward, Temporary Leave, Return, and Discharge processes
- Tested infrastructure hierarchy logic (Facility → Building → Ward → Room) including CRUD operations and dependency validation rules
- Performed data validation testing for complex input constraints (unique codes, field length, format rules, encryption display, file upload limits)
- Conducted permission and role-based access testing according to system matrix
- Verified search, advanced filtering, pagination, and response time
- Executed regression testing across modules before release
- Logged and tracked defects, collaborated with BA and Developers to clarify business rules and retest fixes

Technologies Used: Jira, Excel/Docs, PostMan, Dbearver, Jmeter

PouchNATION: *Asia's #1 Event Technology Platform, manage the guests' journey from the very beginning, event discovery and ticket purchase.*

Duration: Jan 2024 – Jan 2025

Teamsize: 10

Responsibilities:

- Create test plan, testcase and review member's test case
- Execute test for multi platform (venue dashboard and mobile) and
- Execute test with multi devices: POS device, Nexgo device, mobile,...
- Analyze test result, diagnose bugs and follow full bug process
- Do the demonstration with internal team and customer
- Execute the performance test (load test and stress test) to make sure the system works normally under big event
- Identify and remedy defects within the production process
- Recommend, implement and monitor preventative and corrective actions to ensure that quality assurance standards are achieved
- Ensure that user expectations are met during the testing process

Technologies Used: Jira, Excel/Docs, Dimensions, Bird Eats Bug, JMeter

INVETO: *Online data analysis platform with AI for investors. Products on INVETO platform include cryptocurrencies, securities, real estate. The system integrates algorithms from AI and ML to help suggest buying and selling products, giving information, trends and price history of products.*

Duration: Aug 2023 - Jan 2024

Teamsize: 10

Responsibilities:

- Plan, execute, and oversee product inspection and testing for quality and conformance to specifications and deliverables
- Assist operations by tracking, documenting, and reporting quality levels
- Investigate reports of product quality issues and ensure resolution in accordance with company guidelines and regulatory requirements

Technologies Used: Jira, Excel/Docs, Dimensions, Bird Eats Bug, JMeter

ECMS: *Social listening project for No. 1 Entertainment client in Korea. The project will contribute to helping customers monitor and follow social networks automatically, contributing to reducing the current large amount of manual monitoring resources.*

Duration: Jan 2023 - Aug 2023

Teamsize: 5

Position: Quality Control Manual

Responsibilities:

- Review and analyze system specifications
- Collaborate with other team members to develop effective strategies and test plans
- Execute test cases and analyze results
- Evaluate product code according to specifications
- Create logs to document testing phases and defects
- Report bugs and errors to development teams

- Help troubleshoot issues
- Conduct post-release/ post-implementation testing
- Work with cross-functional teams to ensure quality throughout the software development lifecycle

Technologies Used: Jira, Excel/Docs, Virtual browser, Postman

CareerGenie: *The project involves building a mobile application to help users develop their career path. This application will be based on the user's CV and the skills they provide to find a suitable career path based on their current skills. It will also assist in creating a learning roadmap for users to achieve their goals in their suggested careers.*

Duration: Oct 2022 - Jan 2023

Teamsize: 10+

Position: Quality Assurance

Responsibilities:

- Review and analyze system specifications
- Create the testing report
- Work with the product team to understand requirements, design comprehensive test plans and test cases

Technologies Used: Jira, Excel/Docs, Virtual browser, Postman

Sept 2021 — Oct 2022 JONCKERS Co.Ltd

Marriot: This provides a platform for customers to book rooms and each region will have different languages so that customers can better understand the hotel.

Duration: Mar2022 - Oct 2022

Teamsize: 10

Position: Quality Control Manual

Responsibilities:

- Using ad hoc testing to test language project
- Writing and executing test cases.
- Estimate test effort
- Log bug

SIDE PROJECTS

Sept 2025 – Jan 2026

Smart Financial Analysis Platfrom

Description: An AI-driven financial ecosystem designed for C-level executives and analysts, featuring natural language querying for financial data, automated visualization, competitor benchmarking via PDF data extraction, and integrated reporting for Investor Relations.

Teamsize: 10

Position: Quality Assurance

Responsibilities:

- **Functional & UI Testing:** Designed and executed test cases to validate core features, UI components, data visualization (charts/graphs), and file export functionalities.
- **Data & Logic Verification:** Verified data accuracy across financial calculations, AI-powered data extraction from PDFs, and search query logic.
- **Integration Testing:** Checked access permissions, file-sharing features, version control, and system integration flows.
- **Defect Management:** Logged, tracked, and managed bugs using Jira; worked closely with

Devs and BAs to ensure high-quality software delivery.

Technologies Used: Jira, SQL, Postman, AI Testing Tools.

EXTRACURRICULAR ACTIVITIES

2019 – 2021

ELECTRIC POWER UNIVERSITY CLUB

Volunteers

Participating in charitable activities

Participating in voluntary blood donation
