

NGUYEN LE HUY

QA Engineer (Manual & Automation Tester)

Ha Noi, Vietnam | 0325 621 727 | huypanda2001@gmail.com

PROFESSIONAL SUMMARY

QA Engineer with 2+ years of experience in both Manual and Automation Testing across Web, Mobile, Desktop, and Fintech systems. Experienced in test case design, defect management, and ensuring product quality. Familiar with online payment gateway systems, including payment processing and 3DS authentication. Passionate about delivering high-quality products and improving testing efficiency.

WORK EXPERIENCE

QA Engineer (Manual Tester) | Banking Project (01/2026 – Present)

Project: Online Payment Gateway (Web / API)

Description: An online payment gateway system enabling secure transactions and real-time processing. Supports 3DS authentication and integrates with multiple banking services via APIs.

Tools: Postman (API testing), MySQL (data validation), Playwright (automation), Jira (bug tracking)

- 1 Analyzed business requirements for payment, transaction, and account modules
- 2 Designed and executed manual test cases for Web and API
- 3 Performed functional, integration, and regression testing
- 4 Validated data using SQL queries
- 5 Maintained and executed automation test scripts (Playwright)
- 6 Detected and tracked defects using Jira
- 7 Collaborated with BA and Dev teams

QA Engineer | LG (Onsite) (11/2024 – 12/2025)

Project: JLR Diagnostic System (Desktop & Mobile)

Description: A diagnostic system used to monitor and troubleshoot vehicle conditions across Desktop and Mobile platforms.

Tools: Robot Framework, Python, Jira

- 1 Developed automation test scripts using Robot Framework & Python
- 2 Executed manual & cross-platform testing (Desktop & Mobile)
- 3 Logged defects using Jira

Manual / Automation Tester | FPT Software (IVS) (04/2024 – 11/2024)

Project: AVN – In-Vehicle Information System

Description: An infotainment system providing navigation, media, and connectivity features for vehicles.

Tools: Robot Framework (test automation), Python (scripting), Jira (bug tracking)

- 1 Conducted manual functional and usability testing
- 2 Designed and executed test cases
- 3 Developed and maintained automation test scripts using Robot Framework & Python

Manual Tester | EMSO Vietnam (12/2023 – 03/2024)

Project: Social Network Platform

Description: A social platform enabling users to connect, share content, and interact across Web and Mobile.

Tools: Jira

- 1 Performed manual Web & Mobile testing

- 2 Reported bugs using Jira

Intern Tester | 3i Solutions (10/2023 – 11/2023)

Project: Meta Learn

Description: An online learning platform supporting course management and user interaction.
