SUMMARY

Manual QA Engineer with 5 years of experience in Web, Mobile app, and API Testing, especially in fintech and system-based projects.

Strong foundation in API testing and SQL, with experience in end-to-end testing, requirement clarification, and production support.

Currently transitioning to Automation Testing (Selenium with Java), with a strong interest in expanding toward technical and full-stack testing capabilities.

Experienced in working with clients and cross-functional teams to ensure product quality and delivery.

TECHNICAL SKILLS

- **Testing Types:** Manual Testing, API Testing, Regression Testing, UAT Testing
 - **Tools:** Postman, Swagger, Proxyman, Chrome DevTools
 - **Database:** SQL Server, MySQL, PostgreSQL
 - **Bug Tracking:** Jira, GitLab
 - **Others:** Figma, Dbeaver, GitHub
 - **Basic Knowledge:** Selenium (Java – learning)
-

TECHNICAL DEVELOPMENT (IN PROGRESS)

- Learning Selenium WebDriver with Java for UI Automation
 - Practicing API testing and automation using Postman collections
-

WORKING EXPERIENCE

POWERGATE AUSTRALIA

Apr, 2025 - Now

Project: Campervan Booking & Travel App (Australia)

Role: Sole QA (End-to-End)

- Take full ownership of QA activities as the only tester in the project
- Work closely with stakeholders to clarify requirements and define test scope from early stage
- Design and execute end-to-end test scenarios covering booking flow, payment flow, user management, and other core features
- Ensure data consistency between mobile app and backend systems through API and database validation
- Manage defects, support UAT and production
- Prepare demo video and documents after each sprint

Highlight:

Owned full QA lifecycle independently in a fast-paced environment

Project: Test Management System (Australia)**Role: Test Leader**

- Lead QA activities such as managing requirements, test cases, defects
- Clarify requirements with PM and clients
- Design and review test cases
- Perform API testing and SQL validation
- Manage defect lifecycle and regression testing
- Support production validation
- Structure and maintain project documentation

Highlight:

Improved requirement clarity, reducing rework during testing phase

SPHINX JSC

July, 2022 – Mar, 2025

Project: Stock trading mobile app (HK, Singapore)**Role: Test Leader**

- Lead testing for a fintech mobile app with real-time trading features
- Create test plan, assign tasks, and monitor team's progress
- Perform end-to-end testing including API validation and integration testing
- Validate API behavior and ensure correct data flow between systems
- Report test results directly to clients
- Coordinate UAT and support production issues

Highlight:

Ensured stability of critical trading and data flows before release

Project: Stock management website (HK)**Role: Tester**

- Perform web and API testing for ESG stock management system
- Work with stakeholders to clarify requirements
- Execute regression testing and report quality status

Project: E-commerce website (Vietnam)**Role: Tester**

- Execute end-to-end testing for user and admin workflows (orders, payments, reporting)
- Validate backend data using SQL queries
- Support UAT and investigate production issues
- Collaborate with BA/PM to clarify business flows

Highlight:

Hands-on experience in order, payment, report flow and backend validation

SILVER SEA ANALYTICS LLC

Jan, 2021 – June, 2022

Role: Tester cum BA

- Build and test RPA solutions using UiPath for accounting processes
- Automate workflows interacting with web, Excel, and email systems
- Create documentation and user guides for non-technical users

Highlight: Early exposure to automation mindset through RPA

SAMSUNG ELECTRONICS VIET NAM THAI NGUYEN CO., LTD

Jan, 2014 – June, 2020

Role: System Support & Administrator

- Support internal purchasing system and handle daily issues
- Train users and create localized documentation
- Collaborate with IT teams to improve system functionality

Highlight: Strong understanding of business processes and system operations

CERTIFICATES

Mar, 2025

TOEIC Certificate (IIG Hanoi) (915/990)

Oct, 2023
